Name _____	Phone _____	E-MAIL _____
Address _____	City _____	State _____ Zip _____
Height _____	Weight _____	Date _____

Please wear the clothes and shoes that you regularly wear skydiving and have someone help you take the measurements to ensure accuracy.

Take shoulder measurements from the point where the shoulder starts to curve downward toward the arm.
Take the measurements with your arms at your sides.

___ A. Neck
___ B. Shoulder to shoulder (across the back)
___ C. Shoulder to wrist (measure to just past bump of wrist)
___ D. Shoulder to elbow (arm held slightly bent)
___ E. Biceps (not flexed around fullest part)
___ F. Wrist
___ G. Chest (over nipples)
___ H. Chest under breasts (women only)
___ I. Indentation at throat straight down to middle of breasts (women only)

For all waist measurements tie a string around your waist to mark the waistline to be sure all measurements are to the same point. The crotch is where all the leg seams of your pants come together. When you take the body length measurements (L, M and N) be sure to stand up as straight as you can.

___ J. Indentation at throat to waist
___ K. Back of neck (the bone at the base of the neck) to waist
___ L. Body (Indentation at throat down front between legs and back up to base of neck)
___ M. Waist (thinnest part of torso usually in line with the belly button)
___ N. Hips (fullest part between waist and crotch)
___ O. Crotch to floor (inseam)
___ P. Thigh (fullest part, usually at crotch)
___ Q. Around and just above the knee
___ R. Knee to the floor (measure from a point even with the top of the kneecap straight down side of leg)

Please write down any additional information you think I need to know in order to make the perfect suit for you.

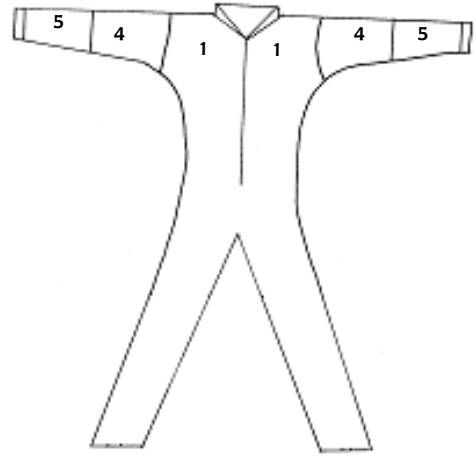

No Bootie RW Suit Colors and Fabrics
