Please wear the clothes and shoes that you regularly wear skydiving and have someone help you take the measurements to ensure accuracy.

Take shoulder measurements from the point where the shoulder starts to curve downward toward the arm.  
Take the measurements with your arms at your sides.

- \_\_\_ B. Shoulder to shoulder (across the back)
- \_\_\_ C. Shoulder to wrist (measure to just past bump of wrist)
- \_\_\_ D. Shoulder to elbow (arm held slightly bent)

For all waist measurements tie a string around your waist to mark the waistline to be sure all measurements are to the same point. When you take the body length measurements (L, M and N) be sure to stand up as straight as you can.

- \_\_\_ K. Waist (thinnest part of torso usually in line with the belly button)
- \_\_\_ L. Indentation at throat to waist
- \_\_\_ M. Back of neck (the bone at the base of the neck) to waist
